

MID-CONTINENT AIRCRAFT CORPORATION

Planegram

WELCOME TO THE FAMILY

We would like to take this opportunity to welcome Cole Law of Waterloo Aviation, LLC, Texarkana, TX into the world of the Thrush family.

Cole bought his first Thrush from Mid Continent Aircraft Corp. in August.

No matter what job you're taking to the air to do today, you'll want to be in a Thrush. Thrush aircraft are designed with pilots in mind and a keen eye to what will make your life easier and your job more successful. Thrush flies circles around the competition and leave them in the proverbial dust.

When your work as a crop duster is in the cockpit of a Thrush, it's going to be a good day at the office.

The view is great from here!

The hoppers on all Thrush aircraft are made of lightweight fiberglass with polyester resin to resist abrasion and offer strong adhesives, making maintenance and repairs trouble free. Plus, the transparent construction allows hopper levels to be viewed in flight and on the ground during loading operations. This saves you time, and let's you keep working without having to guess at your remaining load.

Our Mission:

To keep you flying.

Since 1949, Mid-Continent Aircraft has been the leader in Agricultural Aviation by providing a variety of services that exceed our customers' expectations.

We are committed to the advancement of general and agricultural aviation technology.

As we move into each day, we will continue to grow with your business and provide the tools you need to be a success.

MID-CONTINENT AIRCRAFT CORPORATION is located in Hayti, Missouri, 80 miles north of Memphis, Tennessee. Even though Hayti is not the geographical center of our nation, **MID-CONTINENT** is the center for all ag aviation needs.

With excellent daily truck freight lines, air freight, Federal Express, and UPS delivery capability, **MID-CONTINENT** has and will continue to cover the world.

COMPANY STARS

CHRIS WILSON, Aircraft Painter

Chris has been with Mid Continent since June 25th 2013.

He lives in Canalou, MO. and loves to fish, hunt, and paint aircraft.

He has a daughter, Taylor Wilson.

PARTS, PARTS, & MORE PARTS

This month we thought we'd remind everyone about some of the products we sell every day in our Parts Department.

Aircraft we currently provide airframe parts for are Ag-Cat, Cessna Single & Ag with access to multi engine parts, Thrush 400 series to the H80 & 710. Air Tractor parts are available from 300 series to 802.

Some of the items we sell that have been in recent publications are the Poison Aero Tow Bar, Marburger Ag-Tips, & ATS Vortex Generators.

We are a dealer for Agrinautics, Allied Ag-Cat, Collins A/C, Bend Tarp & Liner, Compro Smokers, CP Products, David Clark, Emco-Wheaton, Hershey, Onboard Systems (Crop Hawk), Stainless Steel Fabricators, Thrush, Transland, & Zee system to name a few.

We sell new helmets, active noise reduction (A.N.R), headset, and other communication needs for helmets. We do helmet refurbishment year round.

Most people have heard of our Load Hog System for a hydraulic hopper door and auger systems. This can prevent someone slipping on a wing and allows the pilot to control the hopper door from the cockpit while loading dry materials. Add a bottom load chemical & fuel feature to that and you may never have to have a loader boy on your wing.

Portable containment pads have had a surge recently as more people are branching out to satellite locations. Our Air-O-Pad produced by Bend Tarp & Liner have been sold & shipped to several states. They can be custom designed but standard sizes are 15x40 & 15x50 & 24x50 for larger aircraft.

Some of the more common items we stock are batteries, bearings, brake parts, Rapco & Cleveland, Tires, tubes, Champion filters & spark plugs. Everything you'd expect from the **World's Largest Agricultural Aircraft Dealer**.
