## AIRCRAFT CORPORATION

Aircraft Sales, Insurance, Parts, & Maintenance

1601 Hwy 84 • Hayti, MO 63851 • 573-359-0500 • 800-325-0885

October

2015

September 10th, Mid-Continent was host to the Thrush 2015 Summer Tour. Over 100 aerial applicators attended and were given the opportunity to fly the new Thrush 510G. Also in attendance were Transland and Satloc. An extra treat was lots of Southeast Missouri Bar-B-Q and the fixin's.

The pilots flying the aircraft were impressed with

the 510G and reported it to be the best they've ever flown.

(Left to Right): Terry Humphrey (Thrush), Dick Reade (M-C), Roberto Rodriguez (Transland), Chris Cobb (M-C), and Eric Rojek, (Thrush)

Along with some some great flying, everyone in attendance enjoyed the great food and fellowship.

Aircraft Maintenance - A&P Mechanic wanted with PT6A and Sheet Metal experience.

Electrical and Air Conditioning experience a plus. 401K Group, Excellent Benefits.

### **Some H80 FAQ's:**

#### **What's the warranty on a new engine?**

- For a new aircraft delivered in 2015, GE offers an extended warranty of 2500 hours or 5 years, whichever comes first.

#### **What's included in my overhaul?**

- Disassembly/Cleaning/Inspection
- Repair, or replacement of parts if required or if Life Limited Parts (LLP) life is exceeded
- Overhaul of Line Replaceable Units (LRU's) by the LRU manufacturer (eg. FCU, fuel pump, prop governor and starter generator)
- Implementation of recom-

mended service bulletins

- Assembly/Test/Post-test inspection/Documentation
- Preservation and preparation for shipment - return shipping is not included

#### **How does GE Aviation price an engine overhaul?**

- GE provides and initial price estimate based on: TSO/CSO, corrosion, FOD, area of operation, etc.
- After teardown and inspection the customer will receive a detailed report and the price will be revised based on actual Time & Material.

#### **Where will my engine be overhauled?**

- Your local Authorized Service Center (ASCI) will arrange and manage your heavy repair or full overhaul
- Heavy repairs are performed at a Designated Repair Center (DRC) - Prime Turbines in Dallas, Texas
- Full overhauls are performed at our GE Aviation facility in Prague, Czech Republic

#### **How about Turn Around Time (TAT) for a full overhaul?**

- Standard TAT is 8 weeks, plus the transportation time to/from the overhaul facility
- Rental engines are available if needed. In specific cases, an engine exchange may be available.
