OCTOBER

2016

Leaders promote their industry – that's why Thrush has created a new marketing campaign to raise awareness of the benefits of agricultural aviation, and the vital role it plays in expanding the world's food supply. The "Ag Aviation - Feeding the World" campaign has also been designed to build appreciation for the job ag pilots and their aircraft do to put more food on more tables every day.

Join Mid-Continent at our Open House where qualified pilots will be offered the unique opportunity to fly a Thrush H80 at one of our locations. Come visit and enjoy the good food, conversation, and the latest ag-aviation news.
