OCTOBER

2017

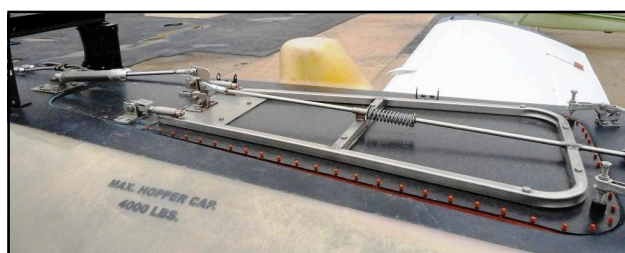

MID-CONTINENT

LOAD HAWG™

The Load Hawk is a safer, more efficient option for loading dry materials into an aircraft hopper. Incorporating a hydraulically operated hopper door and product leveler inside the hopper, both controlled by the pilot, the need for an on-wing loader is eliminated creating a safe and efficient loading process.

STC'd for Thrush and coming soon for Air Tractor.

Call Mid-Continent today and schedule your Load Hawk installation.

• *Dependable, Safe and Efficient*

• *Stainless Steel Auger with sealed bearings.*

• *Field tested and proven over 10 years and hundreds of installations.*

• *Compatible with Air Repair Hydraulic System.*
