## AIRCRAFT CORPORATION

Aircraft Sales, Insurance, Parts, & Maintenance

1601 Hwy 84 • Hayti, MO 63851 • 573-359-0500 • 800-325-0885

FEBRUARY

2017

### We Know Your Business

It takes more than insurance knowledge to provide proper aviation coverage in this very specialized field. Our insurance agency is just one part of a full service aviation center with over 67 years of experience. We have the knowledge and experience of the entire MCAC Team. This knowledge works for you as it keeps us in tune with the industry and gives us an insight that you seldom find in other agencies.

As Insurance Brokers we have access to all available markets. This enables us to provide you with the coverage you need at competitive rates and with service that is unmatched in the industry. Please complete and return the Quotation Request which you can download from our web site for a no obligation proposal on your coverage within 30 days of your expiration date. If you are short on time, call us at 800-325-0885 and we will expedite your quote.

These FAA approved STC (#SA01745WI) wire cutters are the newest advancement in wire cutter technology. Three years of research and devel-

opment have gone into this unique design to create a safer platform for both plane and pilot. The blade has been heat treated to a level of 61 Rockwell Hardness which would be equal to the hardness of a file or chisel. Spacer blocks have been positioned at five points along the blade to increase strength and stabilize the blade in case of a wire strike. Adel clamps positioned along the trailing edge of the landing gear secure the brake line and do away with the standard black zip ties currently used to secure the brake line.

Storm Cutters are now available for every model of Air Tractor from the 300 through the 800 series. This is yet another advancement in safety for the ag aviation industry. Cutters are currently available in stock.
