Smaller and Smarter

The Satloc G4™ is the most complete and advanced aerial guidance system for aerial applicators. Satloc G4 is built with the top-of-the-line processing power of Intel® Dual-Core™ i7 processor and includes Windows® 7 64-bit operating system.

The Satloc G4 features a new 9-inch, 16:9 ratio touchscreen capable of providing faster video graphics as well as the latest in touchscreen technology. Use multi-touch gestures such as pinch-to-zoom, rotate and press and drag to access information. Experience improved connection speeds for downloading job and shape files and prescription maps. The Satloc G4 features video capabilities including Skype™ and Ethernet connectivity for cell-based modems.

Background maps are available with Satloc G4 systems.

Maps enhance flight navigation and confidence by allowing aerial applicators to view flight information such as spray, waypoints, and polygons on background maps.

Stay connected with HQ™, a real-time web-based asset tracking tool that allows companies to track the position and position-related data of aircraft and other assets, such as spotter vehicles and loader trucks.

The Satloc G4 system includes a 9-inch touch screen, CPU, A21™ antenna and exter-

nal CAN lightbar.

Mid-Continent Your Level III Service Center has the largest parts inventory.

Lite Star II, Bantam's, G4's in stock, Flow controls ready to install.

Call us we will not be under sold.

Don't wait for those Airstar Units lay down.

It cost more being down than being prepared.

We can ship a GPS anywhere you need.

Trade-Ins accepted.

Our Mission:
To keep you flying.

Since 1949, Mid-Continent Aircraft has been the leader in Agricultural Aviation by providing a variety of services that exceed our customers' expectations.

We are committed to the advancement of general and agricultural aviation technology.

As we move into each day, we will continue to grow with your business and provide the tools you need to be a success.

Independence Day Trivia

In a remarkable coincidence, both John Adams and Thomas Jefferson, the only signers of the Declaration of Independence later to serve as Presidents of the United States, died on the same day: July 4, 1826, which was the 50th anniversary of the Declaration. Although not a signer of the Declaration of Independence, but another

Founding Father who became a President, James Monroe, died on July 4, 1831, thus becoming the third president in a row who died on this memorable day. Calvin Coolidge, the 30th President, was born on July 4, 1872, and, so far, is the only President to have been born on Independence Day.

COMPANY STARS

Crystal Powell, Administrative Assistant

You will never hear "If you know your party's extension" when you call Mid-Continent. Your call will be answered by Crystal Powell. She is an asset to our Mid-Continent Team.

She has a very pleasant voice and will direct your

calls accordingly.

Crystal is a life long resident of Caruthersville and lives with her adorable two dogs that are like her children!

She loves spending time with her family and friends and her favorite hobby is shopping!

Her little cousins are lucky to have her in their lives, as she spends her time taking care of them and taking them places to have fun.

When you call MCAC you can be assured that your call will be answered and forwarded to the appropriate department.

You will never get just a voicemail at Mid-Continent.
